Overview & How to Use This Guide

Read this first before generating any product data

Your Job as an AI Assistant

You will be given a

product reference

(image, URL, or description) by the user. Using that reference + this guide, generate a complete, structured data payload ready to be copy-pasted into the Infysmart Directus admin panel at **api.infysmart.com/admin**

About Infysmart

Infysmart is an Indian security technology company based in Coimbatore selling CCTV cameras, NVRs, DVRs, access control systems, solar products, and automation equipment. Products are sold across South India. The target audience is home owners, small businesses, and institutions.

Collections You Will Fill Data For

The Directus CMS has three product-related collections you may need to populate:

● product_categories

Product categories like "IP Cameras", "DVR / NVR", "Solar Products". **Only create if the category doesn't already exist.**

● product_brands

Brand records like "CP Plus", "Hikvision", "Dahua". **Only create if the brand doesn't already exist.**

● products

The main product record — this is what you'll fill most of the time. Contains name, pricing, SEO, description, specifications, features, dimensions, weight etc.

Output Format

Always output data as **clearly labelled sections** like the example below. The user will manually copy each value into the correct Directus field.

Output Rule

Use `FIELD NAME: value` for simple text fields. For JSON fields (specifications, features, dimensions), output valid JSON. Always include every required field. If you cannot determine a value from the reference, make a sensible assumption and note it.

Step-by-Step Workflow

1

Receive the product reference

This could be an image, product URL, Amazon/Flipkart link, or a brand model number.

2

Identify or suggest category & brand

Tell the user which category and brand to select (or create if new).

3

Generate the full products record

Fill every field listed in Section 4 of this guide using information from the reference.

4

Generate SEO metadata

`meta_title`, `meta_description`, `meta_keywords` — optimized for Indian search queries.

5

Note what images are needed

List the types of product images the user should upload (front view, side view, box, spec sheet, etc.).

Collection: product_categories

Only create a new category if the right one doesn't exist yet

Check First

Before generating a new category, check with the user if a suitable category already exists. Common existing categories include: *IP Cameras, CCTV Cameras, DVR / NVR Systems, Access Control, Solar Products, Cables & Accessories, Network Switches, Automation.*

FIELD NAME	TYPE	REQUIRED	DESCRIPTION & RULES
name	text	Required	Human-readable category name. e.g. "IP Cameras", "DVR / NVR Systems". Use Title Case.
slug	text	Required	URL-safe version of name. Lowercase, hyphens only. e.g. "ip-cameras", "dvr-nvr-systems". No spaces, no special chars.
description	long text	Optional	2–4 sentence description of the category. Used for SEO category pages.
status	text	Optional	Always set to "published" for new categories.
meta_title	text	Optional	SEO page title. Max 60 chars. e.g. "Buy IP Cameras Online Infysmart"
meta_description	long text	Optional	SEO meta description. 140–160 characters. Include location keywords (India, Coimbatore).
parent_category	number	Optional	ID of parent category if this is a sub-category. Leave empty for top-level categories.
image	file	Optional	Category banner/icon image. User uploads this manually — just note what image is appropriate.
sort	number	Optional	Display order. Lower number = shown first. e.g. 10, 20, 30.

Example Category Output

```
— CATEGORY (only if new) — name: IP Cameras slug: ip-cameras
description: IP cameras use network technology to transmit high-definition video footage
over the internet or LAN. Ideal for homes, offices, and warehouses requiring remote
monitoring. status: published meta_title: Buy IP Cameras Online in India | Infysmart
```

meta_description: Shop IP cameras in India. Hikvision, CP Plus & Dahua IP cameras with HD/4K resolution, IR night vision & PoE support. sort: 10

Collection: product_brands

Only create a new brand if it doesn't already exist

Common Brands Already in System

These brands likely already exist: *CP Plus*, *Hikvision*, *Dahua*, *Bosch*, *Honeywell*, *Godrej*, *Samsung*, *Axis*, *Uniview*, *TVT*, *Reolink*. Confirm with the user before creating a duplicate.

FIELD NAME	TYPE	REQUIRED	DESCRIPTION & RULES
name	text	Required	Official brand name exactly as written. e.g. "CP Plus", "Hikvision", "Dahua".
slug	text	Required	URL-safe brand name. Lowercase, hyphens. e.g. "cp-plus", "hikvision".
website	text	Optional	Brand's official website URL. e.g. "https://www.cpplusworld.com"
status	text	Optional	Always "published" for active brands.
logo	file	Optional	Brand logo image. User uploads manually. Note: should be SVG or PNG with transparent background.

Example Brand Output

```
— BRAND (only if new) — name: CP Plus slug: cp-plus website:
https://www.cpplusworld.com status: published logo: [User to upload brand logo PNG/SVG]
```

How to Add in Directus Admin

- Go to
api.infysmart.com/admin
→ Login
- In left sidebar click
"product_brands"
→ click
" + Create Item "
- Fill in the fields and click
Save
- Note the brand ID shown in the URL — you'll need it when creating the product

Collection: products — Core Fields

The primary product record. Fill all required fields, try to fill optional ones too.

FIELD NAME	TYPE	REQUIRED	DESCRIPTION & RULES
name	text	Required	Full product name including brand, model number, key specs. Be descriptive — this is the SEO title. e.g. "CP Plus 2MP Full HD IP Outdoor Bullet Camera / Model: CP-UNC-TA21L3C / IR Night Vision / IP67"
slug	text	Required	URL slug — lowercase, hyphens only, no special chars. Derived from product name but shorter. e.g. "cp-plus-2mp-ip-outdoor-bullet-camera-cp-unc-ta21l3c"
sku	text	Required	Stock Keeping Unit. Use the brand's official model number if available. e.g. "CP-UNC-TA21L3C-LQ" or generate as "ISS-{BRAND}-{3-digit-num}"
category	relation	Optional	Select from existing categories. Just name the category — user will select it from the dropdown.
brand	relation	Optional	Select from existing brands. Just name the brand — user will select from the dropdown.
short_description	long text	Required	2–4 sentences. Used in product listing cards and meta fallback. Plain text only, no HTML. Mention: resolution, key feature, use case, warranty/STQC if applicable.
description	rich text	Optional	Full product description in HTML. Include: overview paragraph, technology explained, use cases, what's in the box. Min 200 words recommended for SEO.
price	decimal	Required	MRP / selling price in Indian Rupees (INR) . Include GST in the price. Numbers only, no ₹ symbol. e.g. 3499 or 12500.00
sale_price	decimal	Optional	Discounted price if applicable. Must be less than price. Leave empty if no discount.
status	text	Optional	Set to "published" to make product live on the website.
is_featured	boolean	Optional	Set to true for premium/popular products to show on homepage. Default: false.

FIELD NAME	TYPE	REQUIRED	DESCRIPTION & RULES
stock_quantity	number	Optional	Current stock count. Default to 100 if unknown and inventory isn't tracked.
track_inventory	boolean	Optional	Set to false unless specific stock management is needed. Default: false.
weight	decimal	Optional	Product weight in kilograms (kg) . e.g. <i>0.35</i> for 350g. Used for shipping calculations.
tags	JSON array	Optional	Array of search tags. Use brand name, model, key features, use case keywords. e.g. [<i>"cp plus"</i> , <i>"bullet camera"</i> , <i>"2mp"</i> , <i>"ip camera"</i> , <i>"outdoor cctv"</i> , <i>"night vision"</i>]

JSON Fields: specifications, features, dimensions

These must be valid JSON — copy exactly as shown, filling in your values

specifications — JSON Array of Objects

Technical specifications shown in a table on the product page. Each item has a label and a value.

For CCTV cameras, include: Image Sensor, Resolution, Lens, IR Distance, Night Vision, Compression, Frame Rate, IP Rating, Power, Operating Temp, Dimensions.

```
— specifications field (JSON Array) ————— [ { "label": "Image Sensor", "value":
"1/2.8\" Sony STARVIS CMOS" }, { "label": "Resolution", "value": "2MP (1920×1080)" }, {
"label": "Lens", "value": "3.6mm Fixed Lens" }, { "label": "IR Night Vision", "value": "Up
to 30 metres" }, { "label": "Color Night Vision", "value": "Yes (F1.6 Aperture)" }, {
"label": "Video Compression", "value": "H.265+ / H.264+" }, { "label": "Max Frame Rate",
"value": "25fps @ 1080p" }, { "label": "IP Rating", "value": "IP67 (Weatherproof)" }, {
"label": "Power Supply", "value": "12V DC / PoE (IEEE 802.3af)" }, { "label": "Operating
Temp", "value": "-30°C to +60°C" }, { "label": "Built-in Mic", "value": "Yes" }, { "label":
"Certifications", "value": "STQC Certified, CE, FCC" }, { "label": "Warranty", "value": "2
Years" } ]
```

features — JSON Array of Strings

Bullet-point product features displayed prominently on the product page. Keep each feature short (max 10 words), benefit-focused.

```
— features field (JSON Array of strings) ————— [ "Full HD 1080p Color Night Vision",
"IP67 Weatherproof – Works in Heavy Rain", "STQC Government Certified – Made for India",
"Built-in Microphone for Audio Recording", "H.265+ Compression – Saves 50% Storage", "PoE
Support – Single Cable for Power & Data", "Wide Temperature Range -30°C to +60°C",
"Compatible with CP Plus NVR & Third-party NVRs" ]
```

dimensions — JSON Object

Physical product dimensions in **millimetres (mm)**.

```
— dimensions field (JSON Object) ————— { "length": 172, // mm "width": 72, // mm
"height": 72 // mm }
```

JSON Rules — Critical

- All keys must be in **double quotes**
— "label" not label
- String values in double quotes, numbers without quotes
- No trailing commas after the last item
- Arrays start with [and end with]

- Objects start with {`{`} and end with }
- Test your JSON at **jsonlint.com**
if unsure

Critical for Google rankings — fill all of these carefully

SEO Context for India

Infysmart targets customers in

Tamil Nadu, Karnataka, and South India

. Primary cities: Coimbatore, Chennai, Bangalore, Salem, Erode, Hosur. Include location-based keywords where natural. Focus on *"buy online"*, *"price in India"*, *"with installation"* queries.

meta_title

Required

Page title shown in Google search results. **Max 60 characters.** Include: primary keyword (product type + brand), action word (Buy), location (India/Online), brand (Infysmart).

FORMAT

{Product Type} {Brand} {Model} – Buy Online | Infysmart

EXAMPLE

CP Plus 2MP IP Bullet Camera CP-UNC-TA21L3C – Buy Online | Infysmart

meta_description

Required

Search snippet shown below the title. **140–160 characters.** Include: key specs, benefits, call to action, location. Must be compelling to encourage clicks.

EXAMPLE (154 CHARS)

Buy CP Plus 2MP IP66 outdoor bullet camera with color night vision & built-in mic. STQC certified. Best price in India. Free shipping. Shop now at Infysmart.

meta_keywords

Optional

Comma-separated keywords. Include: brand + model, generic product type, use case, location variants. Aim for 8–15 keywords.

EXAMPLE

cp plus ip camera, 2mp bullet camera, cp-unc-ta21l3c, outdoor cctv camera, color night vision camera, ip camera price india, cctv camera coimbatore, stqc cctv camera, buy ip camera online

og_image

Optional (file upload)

Open Graph image used when the product is shared on WhatsApp, Facebook, Twitter. Ideal size: **1200×630px**. Should show product clearly on a clean background. User uploads this image manually — just note that it's needed.

SEO Keywords Strategy by Product Type

PRODUCT CATEGORY	MUST-INCLUDE KEYWORDS
CCTV / IP Cameras	cctv camera price india, buy cctv camera online, [brand] camera, [resolution]mp camera, night vision camera, outdoor cctv
DVR / NVR Systems	dvr price india, 4/8/16 channel dvr, h.265 dvr, cctv dvr system, buy dvr online india
Access Control	biometric attendance machine, fingerprint door lock, access control system india, rfid access control
Solar Products	solar panel price india, solar camera, solar cctv, off-grid solar system
Cables & Accessories	cctv cable price, coaxial cable, power supply cctv, camera accessories india

Images & Complete Output Example

How to handle images and what your final output should look like

Product Images (thumbnail + gallery)

Images are uploaded manually in Directus — the AI cannot upload them. However, you should **tell the user exactly what images to gather**.

Image Checklist — Tell the User to Gather:

- **thumbnail**
 - Main product image, front view, white/clean background, minimum 800×800px. This is the primary image shown in product cards.
- **gallery image 1**
 - Front 3/4 angle view
- **gallery image 2**
 - Side profile view
- **gallery image 3**
 - Rear/connector view
- **gallery image 4**
 - In-use/installation example
- **gallery image 5**
 - Box/packaging shot
- **gallery image 6**
 - Specification sheet / data sheet screenshot
- **og_image**
 - Lifestyle/banner image at 1200×630px for social sharing

Images can be sourced from: brand's official website, Amazon listing, Flipkart listing, or photographed.

How to Upload Images in Directus

1. Open the product → scroll to **Thumbnail** field → click to upload the main image
2. Scroll to **Images** field → click "+" to upload gallery images one by one
3. Drag images to reorder (first = primary in gallery)
4. For **og_image** → scroll to the SEO section → upload 1200×630px image

Complete Product Output Template

When generating data, use exactly this format so the user can easily copy-paste each value:

```

[ ] || INFYSMART PRODUCT DATA - [PRODUCT NAME] ||
[ ] — CATEGORY
— Select existing: "IP Cameras" (or create new — see
above) — BRAND — Select existing: "CP Plus" (or
  
```

```
create new - see above) — CORE FIELDS — name: CP Plus 2MP

Quick Reference Cheat Sheet

All field rules at a glance

FIELD	RULE	BAD EXAMPLE X	GOOD EXAMPLE ✓
slug	Lowercase, hyphens only	CP Plus Camera 2MP!	cp-plus-camera-2mp
price	INR, numbers only	₹3,499	3499
weight	In kg (decimal)	350g	0.35
dimensions	JSON, values in mm	172 × 72 × 72	{"length":172,"width":72,"height":72}
meta_title	Max 60 chars	Very long title with every spec and feature listed out in full...	CP Plus 2MP IP Camera — Buy Online Infysmart
meta_description	140–160 chars	A camera. Buy it.	Buy CP Plus 2MP IP camera with night vision. STQC certified. Best price India. Shop Infysmart.
meta_keywords	Comma-separated, lowercase, no quotes	IP Camera, CCTV, Outdoor	cp plus ip camera, 2mp bullet camera, outdoor cctv, night vision camera, cctv price india
status	Exact string value	Published / Active / Yes	published
is_featured	Boolean, not string	"true" or "yes"	true or false
features	JSON array of strings	IP67 rated, Night vision, PoE	["IP67 Weatherproof", "Color Night Vision", "PoE Support"]
tags	JSON array, lowercase	["IP Camera", "CCTV"]	["ip camera", "cctv camera", "2mp camera"]

Always Include

- name, slug, sku, price

Never Do

- Duplicate category/brand records

- short_description (plain text)
- specifications JSON
- features JSON
- meta_title & meta_description
- status: "published"
- Image upload instructions

- Use ₹ symbol in price field
- Use single quotes in JSON
- Meta title over 60 characters
- Skip sku — must be unique
- Set sale_price ≥ price
- Use status: "active" or "live"
